Application Managed Services

Peloton Consulting Group has the vision and connected global capabilities to help organizations envision, implement, and realize the benefits of digital transformation. Our team has the best practices, knowledge, industry expertise, and know-how. We help organizations go further faster. That is the Peloton way!

Why Peloton for Managed Services?

We make digital transformation a reality by leveraging Oracle technology including - Enterprise Performance Management (EPM), Enterprise Resource Planning (ERP), Supply Chain Management (SCM), Human Capital Management (HCM), Customer Experience (CX), Analytics, and Data Management for the cloud. Through connected capabilities, we bring people, processes, and technology togehter.

Better Together

Oracle and Peloton share a long history of working together to help customers succeed. Our shared commitment to innovation and customer success drives our approach to digital transformation. We can help you connect all parts of your enterprise, bring consistent processes and a single source of truth across all your essential business functions, and accelerate your journey to the cloud. We're dedicated to helping you succeed, no matter where you are on your cloud journey. Let us show you how we can help.

The Value of Managed Services

Peloton specializes in Oracle Applications and have skilled professionals to provide expertise and support when and where you need it.

- **Cost Savings** - Outsourcing the management of Oracle Applications can lead to cost savings for businesses compared to maintaining an in-house team.
- **Reduced Downtime** - We offer proactive monitoring and maintenance of Oracle Applications, minimizing downtime and increasing reliability.
- **Agile Staffing** - Our services are scalable, allowing organizations to increase or decrease their resources based on their needs.
- **Focus on What Matters Most** - Partnering with Peloton allows internal IT teams to focus on core business objectives
