

Peloton HCM Breakaway Now

Peloton Consulting Group, global provider of digital transformation services, announces the launch of Peloton HCM Breakaway Now. This special implementation offering incorporates best-in-class capabilities for customers within the Oracle Cloud HCM enterprise solution and aligns with Oracle’s newly announced Oracle HCM Now program. With a flexible and streamlined path to implementation, Peloton HCM Breakaway Now delivers a swift onramp to achieve unified, global solutions that scale when they grow. By aligning people, process, and technology, our Breakaway Methodology helps companies drive adoption and change, ensure results, and mitigate risk throughout the entire life cycle of their digital transformation.

Key Features

Accelerate time-to-value

Minimize implementation costs and time

Adopt new capabilities quickly and easily

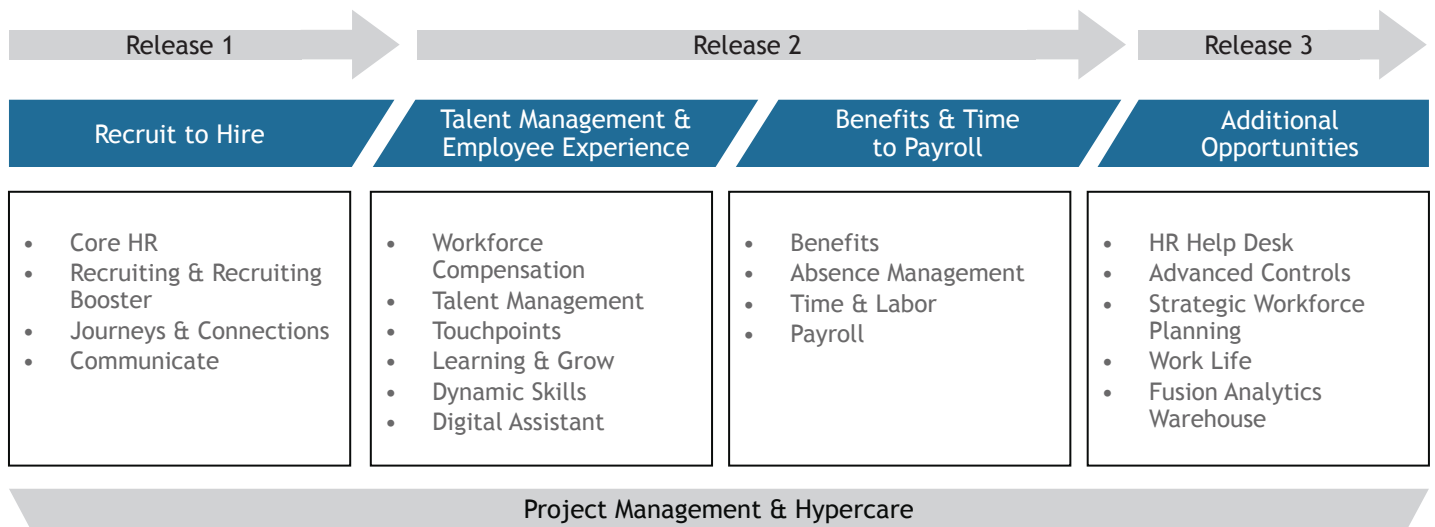

Requirements questionnaires aligned to scope

Plug-and-play configuration starter packs

How it Works

With our team of HCM experts, our specialized Breakaway Methodology, and adjustable configurations, mid-enterprise customers can now smoothly deploy a holistic, straightforward solution in the cloud. With a single data source and backed by AI, global HR solutions are joined together, creating cost efficiencies, scalability, data speed, and data accuracy.
