

Peloton Anaplan Practice Overview

Organizations rely on Anaplan's Connected Planning platform to drive agility, foresight, and collaboration in today's dynamic business landscape. At Peloton Consulting Group, we're committed to helping Anaplan customers like you unlock the full potential of Integrated Business Planning, empowering you to navigate uncertainty with confidence and drive business growth.

Here's how Peloton can supercharge your Anaplan experience:

- **Exceptional Delivery Quality and Flexibility:** With a track record of outstanding delivery quality and flexibility, Peloton is a trusted partner for Anaplan implementations. Our highly referenceable clients across 250+ implementations reflect our commitment to excellence. Whether embarking on your first Anaplan project or scaling existing solutions, you can rely on Peloton to deliver results that exceed expectations.
- **Professional Experts in Business Process and Technology:** Our team comprises 50+ Anaplan practitioners with access to the collective knowledge of 800+ Peloton professionals across the globe. We speak technology, easily tackle data integrations, and infuse the wisdom of change management in all our engagements. We are professional experts, some of whom held business functional roles before learning technology. Anaplan has certified our expertise across Finance, Supply Chain, Workforce, Sales, and Marketing Planning disciplines.

- **Industry Acumen:** Our industry subject-matter experts bring years of experience, understand industry terminology, and offer an authentic point of view to each engagement. We understand your industry-specific challenges and opportunities, which allows us to design and implement Anaplan solutions that drive measurable business outcomes. Peloton is certified by Anaplan across Financial and Business Services, Consumer and Retail, Technology, Media, Telecommunications, Manufacturing, and Life Sciences.
- **Continuous Improvement & Advisory (CIA) Program:** Peloton goes beyond traditional implementation services with our Continuous Improvement & Advisory program. This program bolsters customer value and drives platform expansion through ongoing support, optimization, and innovation. By partnering with Peloton, you gain access to a dedicated team of advisors committed to maximizing the ROI of your Anaplan investment and keeping you ahead of the curve in dynamic and ever-changing business landscapes.

About Peloton Consulting Group
