

## Peloton Financials Accelerator for Oracle Cloud ERP

Oracle Fusion Cloud Financials, part of Oracle Cloud ERP, is a global financial platform that streamlines and automates your financial management processes, covering payables, receivables, fixed assets, expenses, and reporting. Peloton Consulting Group offers a Financials Accelerator to support Oracle's platform, providing a quick and efficient implementation approach helping you swiftly unlock the value of Oracle Fusion Cloud Financials. The accelerator is tailored to get your financial operations up and running smoothly. Core financial implementation accelerators are completed within eight weeks.

### Benefits

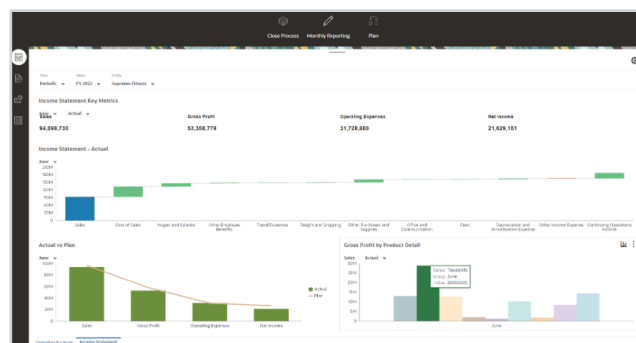

- **Shortened Time to Value:** Peloton's accelerator speeds up implementation, enabling customers to realize benefits and enhance Oracle Fusion Cloud Financials' overall ROI.
- **Improved Decision-Making:** Real-time visibility into financial performance and enhanced reporting empower customers to make informed strategic decisions, driving improved business outcomes.
- **Enhanced Operational Efficiency:** Streamlined workflows and automated processes reduce errors and bottlenecks, leading to smoother operations and cost savings.
- **Customized Solutions:** Tailored implementations ensure that Oracle Fusion Cloud Financials align with your business needs and goals, maximizing the platform's effectiveness.

### Functionality

- **Rapid Implementation:** Expediting Oracle Fusion Cloud Financials setup and configuration reduces implementation timelines for quicker value realization.
- **Machine Learning and AI-Driven Analytics:** Leveraging machine learning and AI-driven analytics helps to identify and refine exception-handling processes, enhancing operational efficiency and risk management.
- **Preconfigured Templates:** Leveraging preconfigured templates and best practices, Peloton's accelerator streamlines deployment, minimizing customization needs and accelerating time to value.
- **Automated Workflows:** Automating critical financial processes like payables, receivables, and expenses ensures seamless workflow automation and reduces manual intervention.

Implementation  
Time to Value  
**8 Weeks**

Our comprehensive accelerator includes modules such as Financials, General Ledger, and Accounts Payable, enabling streamlined operations, automation of critical functions, and real-time insights for strategic decisions. These integrated solutions drive organizational success by boosting efficiency and facilitating better decision-making.
