

EyeMart Express Successfully Live with Oracle Cloud EPM

FOR ORACLE INTERNAL USE ONLY

Oracle Cloud EPM Go Live

Industry: Retail

Eyemart Express | Dallas, Texas | eyemartexpress.com

Products Purchased: Oracle Cloud EPM

Systems to be Replaced: Microsoft Excel

Planned Integrations: Sage & Data Warehouse

Eyemart Express offers a range of prescription and nonprescription glasses, sunglasses, and safety glasses from in-house or designer brands. Eyemart's products are available for purchase online or in-store and they are one of the largest providers of accessible and affordable prescription eyewear in the US.

Cloud EPM Business Drivers

EyeMart Express had been burdened with reliance on manual spreadsheets and misalignment across scenarios due to a legacy EPM system that lacked best practice capabilities and scalability for future growth. EyeMart was looking to enable their organization to more efficiently Budget and Forecast projected results, while creating additional reporting views for the Executive Leadership team.

Peloton Consulting Group successfully implemented a best-in-class Oracle Cloud EPM solution for Retail focused on delivering key retail business logic, the ability to create add-backs and adjustments, as well as automation of the data and metadata load process to support the planning, reporting and analysis process. EyeMart also leveraged Peloton's Breakaway methodology to ensure rapid learning and adoption throughout the entire implementation process. EyeMart Express achieved the following benefits:

Reduced planning cycle time through automated Actual, Budget, Forecast, and What-If scenarios

Minimized the manual effort & risk related to the current Excel planning & reporting processes

Gained ability to provide better analytics to support the strategic objectives of the organization, and to support future growth
