**Northgate Market** is a privately held and family-owned Grocery Store chain based in Anaheim California. Northgate owns and operates 40+ supermarkets with over 6,000 employees across Southern California. They provide the highest quality merchandise, fresh and prepared foods, and personal services including financial service centers, urgent medical clinics, and a non-profit.

**Oracle Cloud ERP - Solution & Key Accomplishments**

To support rapid growth and expansion, Northgate Market was looking to transition from their existing legacy ERP, EPM, CRM and Data Warehousing platforms to a modern technology platform that would scale with their business and allow them to remain competitive in the grocery industry. Northgate's leadership team harnessed the power of the Oracle Platform and leaned on Peloton's industry & technology expertise to develop the implementation roadmap and worked collaboratively to define the roll-out approach. With fully integrated data, industry best practices, and a new reporting strategy Northgate Market is now able to support the growth of their business.

Peloton successfully implemented Oracle Cloud ERP - Financials as part of Phase 1 of Northgate's implementation and achieved the following key benefits:

Automated invoice approvals led to reduced cycle time

Reduced manual check process to automated methods of payment

Decreased lost checks & late cash applications through implementation of an AutoLockbox
