

Oracle Fusion Data Intelligence Accelerator

Oracle Fusion Data Intelligence offers a comprehensive suite of tools that empowers organizations to unlock the full potential of their data. FDI allows you to analyze over 2000 best practice KPIs and metrics across ERP, SCM, HCM, and CX. The FDI Accelerator program is designed for efficient implementation, ensuring swift results and a positive impact on your business. This streamlined approach combines expert guidance with tailored strategies to drive immediate progress, while setting a strong foundation for data management best practices.

Benefits of Implementing FDI

- Create an intelligent and modern data platform. Align your organization with Oracle's roadmap, ensuring long-term support and best-in-class enhancements as Oracle aims to further streamline cloud data analytics and ML/AI capabilities.
- Immediate access to out-of-the box dashboards, reports, and metrics, supported by pre-built semantic models designed to best utilize and provide access to data in fusion applications.
- The packaged service includes Oracle Analytics Cloud powered by Oracle Autonomous Data Warehouse.
- Seamless access to data-driven insights and improved reporting capabilities.
- Integrate Oracle Cloud Applications with third-party data sources using Oracle Analytics Platform and Autonomous Data Warehouse for effortless monitoring of business performance and enhanced company-wide visibility.
- Accessible user-interface and purpose-built data models reduce reliance on IT and allows business users to own their data without in-depth technical knowledge.

Benefits of Working with Peloton

- Years of experience implementing Oracle Fusion, custom Data Warehouse, and Oracle Analytics solutions, Peloton possesses a unique skillset that ensures a smooth transition into FDI.
- A high time-to-value program allows your business to immediately realize the benefits of FDI while simultaneously minimizing the costs associated with an analytics initiative.
- Peloton's change management and training expertise will ensure your business users are comfortable and proficient within their new system.
